

ACFS2389 - Gopa Mahendra Reddy - JIRA TOOL IMPLEMENTATION

ABOUT JIRA

Jira Software is an agile project management tool that supports any agile methodology, be it scrum, kanban, or your own unique flavor.

From agile boards, backlogs, roadmaps, reports, to integrations and add-ons you can plan, track, and manage all your agile software development projects from a single tool.

Epic: Epics track collections of related bugs, stories, and tasks.

Story: Stories track functionality or features expressed as user goals.

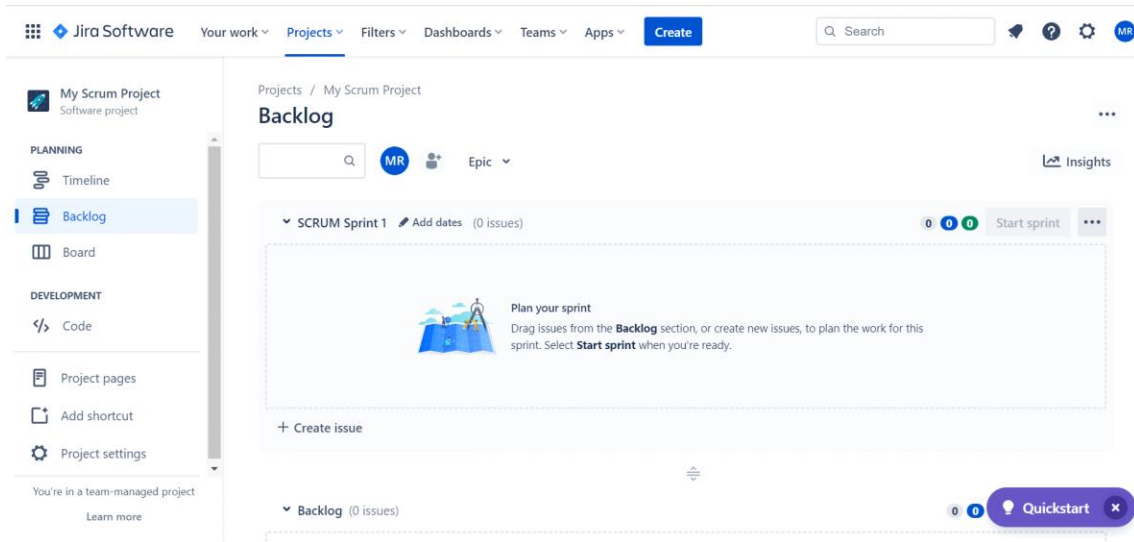

Bug: Bugs track problems or errors.

Task: Tasks track small, distinct pieces of work.

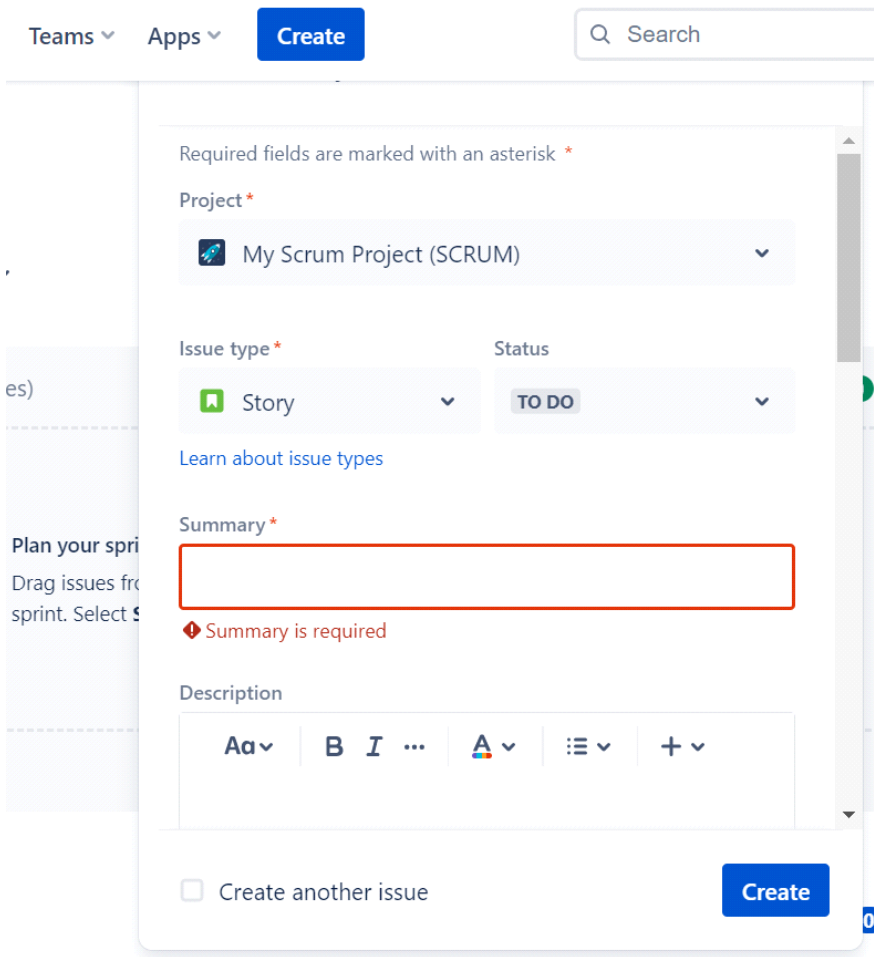

Sub Task: Subtasks track small pieces of work that are part of a larger task.

The image shows a promotional banner for Jira Software. On the left, the text reads: "Jira Software is the #1 software development tool used by agile teams" and "Trusted by 100K+ teams that plan, track, release, and manage world-class software." Below this is a preview of the Jira Software interface, showing a "Backlog" view with a list of tasks and a "Backlog insights" sidebar. On the right, there is a login form titled "Welcome back, Mahendra". The form includes a "Work email" field with the value "mahendra1414314@gmail.com", a "Sign in with a different Atlassian account" link, a "Your site" field with the value ".atlassian.net", and an "Agree" button. Below the login form, it says "NO CREDIT CARD REQUIRED" and "ATLASSIAN". At the bottom right, there is a "Privacy - Terms" link.

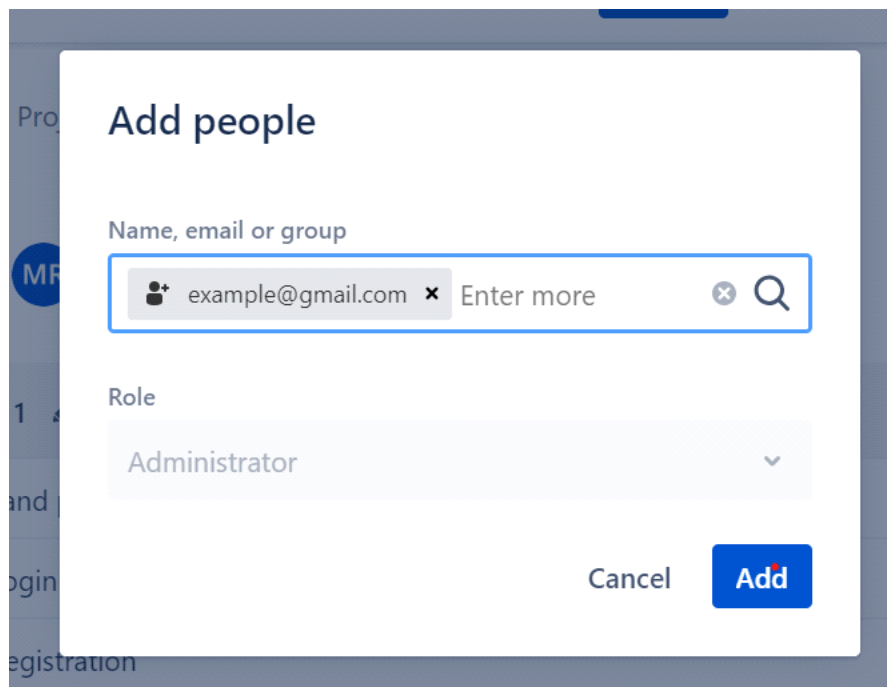

Create the Project

Create issues (Epic --> Modules)

Add the people who do you want to work on project

After assigning the work create sprint 2 for backup purpose and start the sprint and give the duration of the project.

5 issues will be included in this sprint.

Required fields are marked with an asterisk *

Sprint name *

SCRUM Sprint 1

Duration *

1 week

Start date *

9/5/2023 12:57 PM

End date *

9/12/2023 12:57 PM

Sprint goal

Complete the modules on given time duration

My Scrum Project

Review columns and statuses on the board

Save changes Go back ?

Assign statuses to a column to show them on your board. If you want to hide a status, keep it in the left panel.

Unassigned statuses

Drag and drop a status here to hide it from the board and backlog. Issues with these statuses won't be visible.
